

SIDDHARTH PRAJAPATI

NodeJs Developer

📞 +91 9324532609 @ siddharthprajapati59@gmail.com 📍 Thane, Maharashtra

SUMMARY

An intern Backend Developer practicing, designing and building robust, scalable, and secure server-side applications. learning backend technology (Node.js) with framework like Express.js, beginner in database management using SQL MySQL and NoSQL MongoDB, Redis) systems, ensuring data integrity and optimal performance. Adept at integrating third-party APIs, managing microservices architecture, and implementing RESTful and GraphQL APIs for seamless communication between front-end and back-end. A collaborative team player with a problem-solving mindset, passionate about learning, optimizing code, reducing latency, and enhancing user experience.

EDUCATION

Bachelor of Science (Computer Science)

University of Mumbai

📅 07/2021 - 05/2024 📍 Mumbai, Maharashtra

CERTIFICATION

NODE.JS | Scaler Topics

Successfully completed the Node.js course from Scaler Topics and received my certification! This journey has been an incredible learning experience, deepening my understanding of backend development and expanding my skills in building scalable and efficient applications

JavaScript | HackerRank

Passed the JavaScript Skill test by HackerRank. It covers topics like, Functions, Currying, Hoisting, Scope, Inheritance, Events and Error Handling.

PROJECTS

Payment-Gateway

📅 08/2024

Project implemented using Node.JS, Express, React, Stripe, REST API

- Built a Payment Gateway with a modern tech stack, including Node.js for the backend and Vite for the frontend.
- It provides a seamless and user-friendly interface to handle multiple payment methods, including Stripe, Google Pay, PayPal, and Razorpay, ensuring flexibility for both users and businesses.

E-Learning Platform

📅 10/2024

Project developed using Node.js, MongoDB, Express, and Postman

- Implemented an e-learning platform only in backend
- Contains category, course and student api to fetch the details about Student, Available Courses and their Categories

SKILLS

Agile	Data Structures	
Functional Programming	Git	
GitHub	GraphQL	JavaScript
MongoDB	MySQL	APIs
Postman	ReactJs	Redis
Node.js	Express.js	OOP
CSS	Tailwind CSS	REST

SOFT SKILLS

Problem-Solving Mind set

Always been a curious person to identify and resolve the errors. Also, following the best practices for Critical thinking.

Adaptive

Learning Fast and Discover new technologies are Strength.

Innovative

Like to apply and share new ideas and creativity on work to create something unique.

Team Player

For me, Collaboration is the key to learn a lot from peoples in team.
